Nine Simple Laws to Create Joy and Grace has already changed my perception on life, and I find myself much more positive and less stressed. It is totally different than any other book I have ever seen, and allows me to understand the universal laws by stories, examples, exercises and affirmations. Even better, I can FEEL what it feels like to live in alignment with each law with the 9 amazing Stone Play Crystal layout designs, and the (optional) BioMorphic Geometry companion booklet. Thank you for writing such a great book!

A guide to connecting to our inner joy.....

by Teri S. Kashner

Nine Simple Laws, like most essential truths, is simply written while the layers of meaning, and thus, understanding are profound. There is no question there is real potential for inner growth if the reader takes the time to contemplate these truths beyond just reading the book. The exercises are simple and can easily give rise to personalizing one's own exercises as you see fit. The stone play configurations create a subtle and powerful energy of each law's energetic essence resonating with our own personal energy. The affirmations are well thought out and comprehensive in regard to the essence of each law. I put the affirmations in an index card booklet and refer to/practice them daily. A must-have!
