

Nine Simple Laws to Create Joy and Grace: *A Comprehensive Guide to Manifestation* by Sue Hanks Singleton

The amazing popularity of the book *The Secret* was due to its promise that if one faithfully practices the Law of Attraction, the “genie in the bottle” would be unleashed and all wishes would become manifest. The amazing let-down quickly followed as people found that adding *The Law of Attraction* to their wishing routine brought no better results than did wishing alone.

The reason for this, according to internationally renowned Medical Intuitive Sue Hanks Singleton in her book, “*Nine Simple Laws to Create Joy and Grace*”, is that the Law of Attraction is only one of nine universal laws, all of which work together in synergy to manifest the life you are currently experiencing. To focus on only one law, while ignoring the others, is what produces imbalances.

Says Singleton, “Isolating one law is much like trying to build a house with only carpenters, without having an architectural blueprint or infrastructure specialists.” Singleton carries this enlightening metaphor of building a house throughout her book, explaining which laws serve as the builders and which laws provide the infrastructure.

Written as a study and resource guide, conducive to either individual practice or group study, *Nine Simple Laws* devotes an explanatory chapter to each of the nine laws and provides step-by-step exercises and affirmations that can be practiced by the reader to work with each law. Additionally, Singleton incorporates two forms of meditative exercises, Stone Play™ and BioMorphic Geometry™ that, when practiced, actually create the energy frequency of living in alignment with each law, allowing the reader to experience the visceral response of what each law feels like.

Sue’s inspiration for this book followed a car accident in 1990 which left her hanging in the nether realms between life and death. Says Singleton, “I literally saw and came to know the big picture. I began to understand how things work in the universe and the underpinnings of the universal laws.” Sue, along with input from her husband Aaron, wrote this book in response to requests from students in their intuitive development training programs who wanted more insights on how to apply all of the laws in their daily lives.

Inspiring and deeply empowering, *Nine Simple Laws* is a must-read for anyone wishing to live their life in full awareness, appreciation, and application of the nine laws governing the manifestation of joy and grace. And, with a life filled with joy and grace, who needs a “genie in the bottle”?!

Sue Singleton is a medical intuitive with over 20 years’ experience. In addition to her healing credentials, she holds a bachelor’s degree and an MBA, and with her husband Aaron is co-founder of The Way To Balance Center for Advanced Healing and Training in Amesbury, MA.

“*Nine Simple Laws to Create Joy and Grace*” by Sue Singleton is available in soft cover through Amazon.com, Barnes & Noble.com, and other major online booksellers.
