

The EOL™ Neutral Ionic Liquid Light Resonators, Crystalline Light Resonators and Ancient Light Brass Resonators are part of a collection of dynamic, cutting edge vibrational tools based on a revolutionary new technology—“Net-Neutral Ionic™ Energy”, created by Aaron and Sue Singleton.

**What is Net-Neutral Ionic Energy? How does this revolutionary new technology work?**

Neutral Ionic Healing Products are a collection of carrier tools for Net-Neutral Ionic Energy. Energy is imbedded into each **carrier tool** by the exclusive EOL Neutral Ion Generator Device (IG-N), a light energy generator, which converts positive and negative ions into a stream of particles in which each particle has both positive and negative ionic potential (net-neutral particles).

**Rings of Oden™**

Light resonance is accelerated and amplified, and attuned to specific frequencies that create a **new energy vibration that was previously unknown**. Darkness, or illness, is primarily the absence or distortion of light or inadequate energy vibrational frequencies. The ionic energy converts and focuses light into motion, which resonates the subatomic particles of mass, thereby weakening the magnetic field that holds together the structure of the atom. The body’s Inner Knowing takes either the positive or negative charge it needs for healing, and discharges the rest.

**Neutral Ionic  
 Brass Pendant**

**Net-Neutral Ion Generator (aka IG-N):** This unique, first-of-its-kind device basically takes in separate positive and negative ions from the atmosphere, and once inside the device, the positive and negative ions are joined together into a stream of particles in which each particle has equal positive and negative ionic potential (net-neutral particles), which are very gently “bonded” together. The Generator has been most effectively used to imbed this ionic potential into carrier tools, as the complete IG-N is actually many sub-generators as well, making it too large and cumbersome for practical “portable” use. You will NOT find this in Physics books, as this is part of a Quantum Physics discovery by the Singletons.

**Brief History of the Invention of The IG-N and the Neutral Ionic Carrier Tools:**

**Neutral Ionic Gold  
 and Silver Solution**  
 (External Use Only)

Beginning in the late 1990’s, Aaron Singleton had a series of very specific dreams, telling him to build a Generator Device. These dreams included precise specifications on materials, measurements and machining instructions to create a very powerful, non-force technology for healing purposes. Together, he and Sue Singleton fine-tuned the details and took a leap of Faith to spend the money to build the entire system, including hiring out the precision machining of the parts. Once they began experimenting with it, they became more and more amazed at what was happening, in terms of human healing on physical, emotional and spiritual levels. Many experiments later, they discovered that “Carrier Tools” embedded with this energy were speeding up the healing process dramatically, at times to the point of “healing crisis” with over-use for someone unfamiliar with this newly discovered energy.

**EOL Net-Neutral Ionic Energy Healing Benefits** (for all carrier tools):

- ◆ Increases light resonance in the body, i.e. increases the light’s ability to do work on a subatomic level in the cells
- ◆ Enhances Reiki, Prana, Chi/Qi energy flowing through the user/healer
- ◆ Optimizes the positive and negative ion flow throughout the body
- ◆ Increases inter-cellular communication
- ◆ Enhances mental clarity
- ◆ Facilitates the release of physical, emotional, chemical waste and “stuck energy” from the cells
- ◆ Improves lymphatic fluid flow; strengthens immune system function; enhances endocrine system balance; magnifies the “will” or motivational and creative forces of the user

**PRECAUTION:** *Overuse may cause the body to detoxify too rapidly and produce a “healing crisis”: cold/flu symptoms, itching, headaches, sore throat, etc. You must build up your ability to utilize or apply the EOL Neutral Ionic Products for extended periods or full dosage, so please follow our guidelines! Reduce usage and progress more slowly if this occurs.*

## **ANCIENT LIGHT BRASS RESONATORS**

**Ionic Brass Pendant:** The light resonance is increased in the body via a net-neutral ionic field that extends approximately 7 inches beyond the ends and 3 inches around the sides of the pendant. This causes denser, “stuck” areas to open and flow normally.

**Ionic Rings of Oden:** Creates an energy vortex of net-neutral ions that increases light resonance in the body. The spiraling vortex of energy created by the Rings is more versatile and more powerful than a pyramid, and adaptable to numerous healing applications for both practitioners and laypeople. The Rings are described more completely in a separate Rings of Oden Product Usage Handout, as well as in the complete Rings of Oden Manual. The Way To Balance, LLC teaches a Rings of Oden Healing Workshop at the Center and as guest instructors in other locations. ## **LIQUID LIGHT RESONATORS**

**Ionic Gold Solution for Cellular Regeneration (external use only):** An ionically altered solution of gold, minerals and other transitional elements for external application. Through osmosis, the formula transfers an energetic resonance inside the cell walls. It facilitates inter-cellular communication and thus encourages regeneration and detoxification. Also extremely effective for enhancing the body’s ability to resonate with light and sound therapies, particularly when combined with The Rings of Oden and other Net-Neutral Ionic Tools.

**Ionic Silver Solution for Detoxification and Lymphatic Stimulation (external use only):** An ionically altered solution of silver, minerals and other transitional elements for external application. Through osmosis, the formula supports the immune system function, particularly stimulating the body’s response to release foreign substances and toxins. It also encourages more balanced fluid flows throughout the body, especially the lymph system. Also extremely effective for enhancing the body’s ability to resonate with light and sound therapies, particularly when combined with The Rings of Oden and other Net-Neutral Ionic Tools.

## **CRYSTALLINE LIGHT RESONATORS**

**Ionic Amethyst Crystal Pendant (or Polished Ionic Amethyst Stone):** Stone of spirituality and contentment. Balancing of the intellectual, emotional and physical bodies. Facilitates transmutation of lower energies into higher frequencies, and thus is very healing and transformative. Strength, invigoration, peace. The ionic charge amplifies these effects and clears the crystal of mining and processing trauma. Amethyst will hold the extra ionic charge for about 6-7 years. The Neutral Ionic field extends out around the crystal approximately 3-4 inches and is helpful for general or systemic purposes within the body.

**Ionic Garnet Crystal Pendant (or Polished Faceted Ionic Garnet Stone):** Sacred to the Native American and African tribes, said to contain a bolt of lightning to manifest changes rapidly. It enhances the eternal fire to encourage creative ideas to be implemented into the physical. Also opens the sexual energies, while encouraging balance of sexual with the crown chakra energies. Reflects commitment and devotion. The ionic charge amplifies these effects and clears the crystal of mining and processing trauma. Garnet will hold the extra ionic charge about 7-8 years.

**Ionic Citrine Crystal Pendant:** Dissipates and transmutes negative energy, and never needs cleansing or clearing. Chakra aligning, yin-yang balance. Stimulates mental focus, personal power and endurance. Helps promote optimism and dispel fear, anger. The ionic charge amplifies these effects and clears the crystal of mining and processing trauma. Citrine will hold the extra ionic charge about 6-7 years.

**Ionic Chrysocolla Crystal Pendant:** Eases emotional heartache and renews strength, balance. Increases one’s capacity to love. Promotes harmony, communication and re-building of relationships. Helps eliminate negativity within a person and purify the home/office environment. Promotes balance between heaven and earth forces. The ionic charge amplifies these effects and clears the crystal of mining and processing trauma. Chrysocolla will hold the extra ionic charge about 7-8 years.

**Ionic Fluorite Crystal Pendant:** Discernment and aptitude. Helps to see both reality and truth behind illusion. For the physical body, cleansing, elimination of disorder. Very useful for serious illness or conditions to affect the energies around cellular formulation. The ionic charge amplifies these effects and clears the crystal of mining and processing trauma. Fluorite will hold the extra ionic charge about 7-8 years.

**Ionic Lapis Lazuli Crystal Pendant:** Promotes connection between “heaven” (celestial kingdom or spiritual realm) and “earth” (physical body or grounded realm). Enhances perfection and total awareness within the user, to evolve toward “Oneness with all that is.” Protective and balancing of male-female energies, and encourages regeneration in the physical body. The ionic charge amplifies these effects and clears the crystal of mining and processing trauma. Lapis Lazuli will hold the extra ionic charge about 8-9 years.

**Other Ionic Crystal Pendants may be available from time to time, subject to change of styles or availability.**
